EDUCATION

2024 - 2029

FEDERAL UNIVERSITY OF
TECHNOLOGY, OWERRI

- Bachelor of Engineering (B.Eng) –
Computer Engineering

SKILLS

- React & Next.js
- TypeScript & JavaScript
- Node.js & Express.js
- Python & Django
- REST API Development
- PostgreSQL & Prisma
- JWT Authentication
- Tailwind CSS & ShadCN UI
- Git & GitHub
- Prompt Engineering
- Problem Solving
- Team Collaboration

UGOCHUKWUZITERE MBAMA

FRONTEND, BACKEND & PROMPT ENGINEER

PROFILE

Motivated backend and prompt engineer in training with hands-on experience building robust server-side applications and optimizing AI interactions. Proficient in Node.js, Express.js, REST APIs, and database design with PostgreSQL. Skilled in crafting effective prompts to maximize AI capabilities and integrate intelligent features into applications. Strong foundation in authentication systems, API development, and modern web technologies. Passionate about continuous learning, problem-solving, and leveraging AI to build innovative solutions.

WORK EXPERIENCE

• Self-Employed

JULY 2023 - PRESENT

Frontend, Backend & Prompt Engineer

- Built full-stack applications using React, Next.js, TypeScript, Tailwind CSS, and ShadCN UI for modern, responsive user interfaces.
- Developed backend APIs with Node.js and Express, implementing RESTful architecture for efficient data handling.
- Designed and managed PostgreSQL databases, ensuring optimal data structure and query performance.
- Implemented JWT authentication and authorization systems to secure application endpoints and user data.
- Used Git and GitHub for version control, maintaining clean code history and collaboration-ready repositories.
- Applied prompt engineering techniques to optimize AI-powered features and enhance application functionality.
- Applied best practices in code organization, component reusability, and performance optimization.
